MURDERER WAS SLAIN

Infuriated Man Deserted by His Wife
Shot Her Parents.

BEHEADED BY HIS BROTHER-IN-LAW.

Because of a Quarrel a Morgan County
Woman Fled to Her Father's Home.
Husband Followed and the
Horrible Tragedy Ensued.

McConnellsville, O., Nov. 25.—At Unionville, Morgan county, Robert Wilkin and wife had a quarrel. Mrs. Wilkin, taking her child, hurried to the home of her father, Jacob Stokes, a short distance away. The husband followed. Stokes and his wife were on the veranda. Robert Wilkin on arrival, shot and mortally wounded Mr. and Mrs. Stokes. A son of Mr. Stokes then appeared and shot Wilkin in the neck, severing the head from his body.

It is claimed Wilkin imbibed so freely of hard cider that he became intoxicated and whipped his 4-year-old daughter with a buggy whip. Mrs. Wilkin interfered and it is claimed he brutally beat her, which caused her to flee with the child to the home of her father.

Everett Stokes, who killed Wilkin, was brought to McConnellsville and lodged in jail.

The prominence of the Wilkin and Stokes families in the vicinity makes the tragedy doubly sensational.

Fatal Quarrel of Poker Players.
Pittsburg, Nov. 25.—Harry McGee, son of the well known oil operator of this city, is dead as the result of a shooting affray during a poker game at his home at North Bridgewater. McGee and several companions, among whom was Leroy Evans, a young colored man, were engaged in a game of poker, and while arguing over the possession of a jackpot McGee is said to have struck Evans. The latter left the house, saying he would return and get even. In about an hour he came back and challenged McGee to a duel. This proposition was refused. Before others could interfere Evans drew his revolver and fired, the bullet penetrating McGee's right lung. Evans was arrested.

Feud Ends in Bloodshed.
Highland, Kan., Nov. 25.—J. P. Ward, a member of the city council, crushed J. E. Springer's skull with a club, fatally wounding him, after Springer had twice shot him as the result of an old-time family feud. Ward is seriously wounded. Springer went to Ward's house with the avowed intention of shooting his adversary. He fired two shots at Ward, one of which took effect above the heart and the other in the left shoulder, when Ward felled him with a blow on the head. Springer can not live.

Tragedy in Lower California.
San Diego, Cal., Nov. 25.—The killing of Teardo Pierrora, judge of the Alamo district, lower California, is reported. The crime is laid at the door of a border outlaw who is wanted on both sides of the line for almost every crime from murder down. The outlaw was away from his haunts near the line at the time the crime was committed and the fact that he had threatened some sort of punishment for Pierrora gives color to the claim that he handled the revolver or rifle that ended the judge's life.

Murder at a Christening.
Pittsburg, Nov. 25.—William Milwizski, a Slav, was killed and Frank Grandwaski, was fatally injured during a riot following a Slav christening at McKees Rocks. Other participants fled immediately after the killing of Milwizski and the police have been unable to learn the cause of the murder.

Prominent Lawyer Suicided.
Washington, Nov. 25.—Lying against the shore at Mount Vernon, with the coatpockets filled with stone, the body of Alexander D. Anderson, 58, a well-known Washington lawyer and commissioner to the Chicago world fair, was found. Mr. Anderson left a note for his family Sunday morning bidding them adieu, saying he was going to end his suffering of many years from stomach trouble. Hewas a native of Mansfield, Conn., a graduate of Yale and of the Ann Arbor school of law, assistant district attorney of St. Louis under General Noble and special commissioner of the Spanish-American markets for the New Orleans exposition. Mr. Anderson is credited with being the real projector of the Chicago world's fair.

Miss Wackerman in a Padded Cell.
London, Nov. 25.—Miss Helen Vanderbilt Wackerman of New York, who was taken to St. Giles Infirmary Nov. 13 as a wandering lunatic, is in Claybury asylum, Woodford Essex, which is controlled by the London county council, after a desperate attempt to kill a nurse belonging to the infirmary, whom she almost succeeded in

throttling. Miss Wackerman is now in a padded cell. Mrs. Wackerman visited her daughter and says she seemed to be improved. Mrs. Wackerman has been advised that no steps to obtain the release of her daughter are feasible at present.

LOST MINE FOUND.

Indian Who Knew Its Location Died
Years Ago With His Secret.

New York, Nov. 25.—After being lost for 75 years the "Ninety-Nine" silver mine, once famous through the whole Catskill region has been found again. At least that is the belief of J. C. Poole, a mining expert of Trenton, N. J. He discovered a cave in the heart of the Shawangunk mountains, not far from Ellenville, Ulster county, N. Y., which exposes a wide vein of peculiar ore. Numerous essays show heavy value in silver, lead and other minerals.

The mine takes name from a Wawarsing Indian named Neopakiptic, but better known as "Ninety-Nine." The Indian lived near Sockanissling, and was accustomed to come among the settlers of the valley with chunks of almost pure lead and silver, which he exchanged for provisions. He said he dug the ore in a cave in the Shawangunk mountains. A white man, Ben De Puy, succeeding in persuading "Ninety-Nine" to lead him to the cave with eyes tightly bandaged. DePuy returned with tales of a wonderfully rich ledge. He did not succeed in finding the mine again, however, and "Ninety-Nine" died with his secret.

SAVED A SHIP.

By Plunging Into the Water After a
Stray Torpedo.

New York, Nov. 25.—Charles Bergh, boatswain of the submarine torpedo boat Fulton, performed a most remarkable feat of daring at New Suffolk, L. I. It was shortly after he left the Fulton, after being under water in the submarine boat all night. A fierce gale was raging and the tide was so high that there was three feet of water in the streets of New Suffolk. Three large sloops had been driven ashore before the gale and the crowd of spectators on the Holland Torpedo Boat company's wharf noticed what appeared to be a large pile driving toward the C. B. Bransford, sr., one of the sloops that was ashore. The Fulton's crew recognized that the drifting object was a whitehead torpedo dummy weighing 840 pounds. They saw it when it was less than 50 feet from the sloop, which it would have completely wrecked. Bergh though hampered by his overcoat and rubber boots, jumped overboard, fought his way to the torpedo, reached it in time to prevent it striking the Bransford, and steered it safely ashore. It had been floated from the wharf by the high tide.

Strikers Start Another Camp.
Earlington, Ky., Nov. 25.—True to their threat to maintain the camp at Nortonville, the union miners erected another tent Monday on the site of the camp which Judge Hall broke up Sunday. The leaders, Rooney and Reed, who were at Nortonville, were not arrested, and Artie Oats, who had command of the camp, escaped after arrest. The re-establishment of the camp in so few hours was a great surprise. The union men are said to be relying on Judge-elect Glens to again permit the camps in Hopkins county after January 1, although Judge Glens announced that he will stringently uphold the law. Some of the local coal companies who have not already done so are taking steps to secure foreign charters and get under the protection of the United States courts.

The Bonine Trifal.
Washington, Nov. 25.—The trial of Mrs. Lola Ida Bonine for the murder of James Seymour Ayres, jr., last May was resumed Monday and a number of witnesses testified. J. Frank Drew, capitol policeman, swore that he several times seen Mrs. Bonine come out of Ayres' room, the last time about a week before the tragedy and at night about 9 o'clock.

In Service Many Years.
Washington, Nov. 25.—William Gwin, who for 30 years has served as chief messenger to the secretary of state, is dead. He had been in feeble health some time, but persisted in sticking to his work and was at his post Saturday. He died of chronic stomach complaint. He witnessed the signing of the late Hay-Panncote treaty at the state department.

Race Horse Dead.
New Orleans, Nov. 25.—Charlie O'Brien, one of the best handicap horses at the fair grounds, and who is considered one of the fastest sprinters in the west, died of lung fever. He was owned by Mrs. M. Abadie of this city and was entered in all the principal stakes of the Crescent City Jockey club. He was by Trafalgar out of Lucy Lewis.

Washington, Nov. 25.—Secretary Gage has received from an unknown person through the collector of customs at New York a conscience contribution of \$18,669.

AN AWFUL EXAMPLE

Of the Danger In Using Kerosene to
Start the Fire.

FOUR SISTERS BURNED TO DEATH.

Parents and Two Other Daughters
Rescued But the Mother Is In a
Pitiable Condition—A Tale
That Is Often Told.

Pittsburg, Nov. 25.—Four persons were burned to death and two seriously injured in a fire which destroyed the residence of J. C. Miller in Knoxville, a suburb of this city.

Rose Miller, 23, was terribly burned and died on the way to the hospital; Amelia Miller, 19; Amanda Miller, 16, and Sylvia Miller, 9, were suffocated by smoke.

J. G. Miller, the father, jumped from second story window. His leg was broken and bruised but he will recover. Mrs. Miller was badly burned and is on verge of nervous prostration. Two other daughters, aged 11 and 13 years, escaped without injury.

The fire was caused by the oldest daughter, Rose, pouring kerosene in the stove to start the fire for breakfast. The oil in the can ignited and the explosion which followed, scattered the burning oil over the room. The flames spread so quickly that Mr. Miller was forced to jump from the second story window after rescuing his wife and two of his younger daughters. The bodies of the other daughters were found in the ruins after the fire was extinguished. Mrs. Miller was just recovering from a severe illness and is almost distracted over the terrible affair. Fears are entertained that she will not survive the shock.

Brute Burned a Woman.

Chicago, Nov. 25.—Annie Van Broth died at the county hospital from burns, said to have been inflicted by Andrew Boland, who lived in the same house with her. According to the ante-mortem statement made to the police by Miss Van Broth, the couple had been quarrelling. She declared Boland became so angry that he removed the globe and chimney from the lamp in the house and then attempted to burn her face with the flame. She cried out for help and struggled to save herself. Her dress caught fire and in an instant she was a mass of flames. Alarmed at the result of his action, the woman said, Boland attempted to extinguish the fire and was severely burned himself. Two other roomers in the house heard Miss Van Broth's cries and notified the police. An ambulance removed Miss Van Broth and Boland to the county jail hospital, where he informed the police that the affair had been meant as a joke. Later he said it was an accident. The police do not believe either of his statements and will hold him pending the result of the coroner's inquest.

Standard Oil Bonfire.

New York, Nov. 25.—The pipe line of the Standard Oil company which carries the crude oil from the Pennsylvania fields to the refineries at Bayonne, recently burst about two miles from Bound Brook, N. J. The break required a large force of laborers many hours to close it. Meantime the oil spread over a large portion of ground and to prevent further spread to nearby streams, it was determined to set fire to it. The reflection of the burning oil could be seen in the sky for miles around. No estimate of the loss has as yet been made.

Saddlery Store Destroyed.

Beaver Falls, Pa., Nov. 25.—Two large saddlery stores of G. W. Schaney, together with an immense stock of supplies as well as a great many expensive buggies, surreys, etc., were destroyed by fire. Mr. Schaney, his wife and two small children narrowly escaped from the burning buildings with their lives and were rescued from second story windows. The loss on buildings and store was \$40,000.

Spontaneous Combustion.

North Weymouth, Mass., Nov. 25.—A fire supposed to have been caused by spontaneous combustion destroyed the main building of the Bradley Fertilizer works here. Loss estimated at \$100,000. The plant is the property of the American Agricultural Chemical company.

Mother and Child Perish.

Little Rock, Nov. 25.—Mrs. William M. Swift and infant were burned to death at their home near Grannis, Polk county. It is supposed she fell asleep while holding the baby in a chair near the fireplace and that her clothing caught fire.

Clerical Contention.

Rome, Nov. 25.—Owing to friction between the bishop and the clergy of Denver, several priests visited Rome. There was a contention among the clergymen recently and intervention of the police took place. Father Crashing was arrested, but immediately released.

COMMOTION AT COLON

People Take Refuge In Uncle Sam's
Ships—Another Battle.

Colon, Colombia, Nov. 25.—The government troops are attacking the Liberals at Culebra. The result so far is not known. The government gunboat General Pinzon left her anchorage close to the other warships, and is reported to be landing troops on the north end of Colon. There is much commotion in the streets. People are seeking refuge on board the United States gunboats Marietta and Machias, along the railroad and on the piers. Transit across the isthmus has been stopped. Marines from the United States battleship Iowa at Panama have been landed to protect the railroad and are now on line where the fighting is going on.

There is no jubilation which is evidence that the Liberal army is not advancing toward Panama. It is reported to have been defeated at Matcun by General Alban's command. The latter is said to be pushing on Colon.

At a conference held on board the British cruiser Tribune at which General Ignacio Feliaco, Senor De La Rosa, secretary of General Diaz and the commanders of the foreign warships were present, the general agreed, at the request of the naval commanders and on the ground of humanity, having in view the large foreign population of Colon, not to land troops here or open fire on the town before 6 o'clock Friday evening.

The Colombian gunboat General Pinzon is badly off for provisions and the commanders of all the warships agreed to supply her with the necessary stores. The gunboat has not yet returned to Colon and her whereabouts is unknown.

Report That Liberals Were Routed.

Washington, Nov. 25.—Mr. Herran, charge d'affaires of the Colombian legation received the following cablegram from Acting Governor Arjona, dated at Panama, Nov. 25: "Rebel army completely defeated at Culebra and Emperor; governor marched last night upon Colon. Traffic interrupted yesterday, but will be re-established today." Mr. Herran earlier in the day received a dispatch from the acting governor of Panama stating that General Alban had started with a considerable government force to operate against Colon and Linea. It is the expectation of the Colombian authorities to combine this land movement with that of the force on board the gunboat Pinzon and thus be able to recapture the town of Colon. The Colombian authorities here have not been advised of the purpose to bombard Colon. The action taken by the United States in landing marines and protecting the line across the isthmus is in conformity with the wishes of the Colombian government and follow specific request recently made by Mr. Herran.

Protecting Isthmian Transit.

Washington, Nov. 25.—The United States government has taken charge of the Isthmian transit. A dispatch received at the navy department from Captain Perry of the battleship Iowa at Panama reports that fact. Captain Perry says General Alban with 600 men is fighting the Liberals on the line near Empire. Transit is in danger of interruption. Captain Perry has landed with a detachment of men from the Iowa and has started with a train to clear transit and also to establish detachments of men to keep it so. Commander McCrea of the Machias at Colon cabled the navy department of the approaching bombardment of the town and asking for instructions. He has been instructed to take such steps as he deems necessary for the protection of American interests at Colon. While no specific statement is made as to details of this instruction, it is understood that it leaves discretionary with Commander McCrea the prevention of a bombardment.

Liberal Defeat Confirmed.

Washington, Nov. 25.—The state department has received confirmation of the reported defeat of the Liberal troops by the Colombian government troops. This came in a cablegram from Consul General Gudgeon at Panama, in which he said that the railroad is now unobstructed and that the government forces have been victorious over the revolutionists. He further reports that the blue jackets from the Machias have gone inland and now occupy a point midway of the isthmus.

Mrs. Dale Not Yet Arraigned.

New York, Nov. 25.—Mrs. Elizabeth Howe Dale, who is detained in custody in a hospital at Hoboken, N. J., pending investigation as to the death of her little daughter, was unfit to be arraigned in court Monday. She insists that her husband, Harvey S. Dale of Chicago, will not appear against her. Dale was expected to reach Hoboken Monday but thus far the police authorities have received no response to any of the numerous telegrams sent him, asking him to come. Waller, who is charged with living in improper relations with Mrs. Dale, was given a hearing in the evening.

JUST LIKE OTHER FOLK

Queen and Her Royal Consort They

HENRY WANTED HIS DEBTS SQUARED.

Wilhelmina Refused Point Blanks, So
Henry Went Away In a Huff and
the Queen Mother Had to Con-
vince Him to Come Back.

Amsterdam, Nov. 25.—In connection with Queen Wilhelmina's illness the following particulars have been published: Before his marriage Prince Henry lived for a time at a pace beyond his means and, as a consequence, fell into the hands of money lenders. The debts he contracted in those days were to be settled after his marriage with the rich young queen, and quite recently Henry made a clean breast of the matter to her.

Upon learning all the particulars, Queen Wilhelmina declined point blank to pay her consort's debts, the result being that a very violent scene took place between them, which ended in Henry rushing away to Germany and Wilhelmina being taken ill.

It is said that only the most imploring telegrams sent to him by the queen's mother, Queen Emma, induced Henry to return to Holland. The queen's mother is anxious to preserve appearances at least. Since his return to Holland, Henry has not been once to the palace where his queen is.

As proof of the serious character of the queen's illness in spite of all reassuring reports to the contrary may be mentioned the fact that the recent official gazette did not contain a single royal command, which is an unprecedented state of things.

Queen Wilhelmina is improving satisfactorily. Prince Henry will leave Het Loe Tuesday for a short visit in Prussia.

The Tragedy at Mentone.

Mentone, Nov. 25.—Several city officials was shot by M. Orsini, one of the councillors, at the Roquebrune town council meeting. After violent discussion Orsini drew a revolver and fired at M. Brigliano, the mayor, who was dangerously wounded in the abdomen. A second shot struck M. Sigout, the deputy mayor, who was mortally wounded and who died Sunday. Orsini was seized by a policeman, but freed himself and sprang down the stairs, again firing his revolver and slightly wounding another councillor. The crowd outside scattered and Orsini escaped. In the narrow streets of Roquebrune he met the brother of the mayor and fired once more, wounding him in the face. He got clear away and has probably crossed the Italian frontier. The town is seething with excitement and requiem mass celebrated for the deputy mayor was largely attended. It is supposed the motive of Orsini's deed was irritation regarding some municipal improvements opposite the mayor's private house. These necessitated increased taxation and enhanced the value of the mayor's property. Orsini is a former chasseur employed at Monte Carlo. His wife has also disappeared.

German Tariff Bill.

Berlin, Nov. 25.—The preamble to the tariff bill just issued to the members of the reichstag is not characterized by remarkable originality and cogency as an exposition of the arguments in favor of tariff provision. The "act of salvation," as Emperor William called it, which was performed by Chancellor Von Caprivi in reducing the grain duties two years ago is alluded over and the period from 1880 to 1900 in the history of German commercial policy is quite arbitrarily treated as a separate epoch. As a graceful concession to the Pan-Germans and other kindred spirits, the authors of the new tariff have expurgated from its terminology all foreign names of commodities which could find intelligible German equivalents.

Pug Accused of Bank Frauds.

London, Nov. 25.—The puglist, Dick Burge, was arrested in London on a charge of complicity in the recent Bank of Liverpool frauds. It is said the police have recovered a large had been lodged in different banks of London and the provinces. The sums discovered aggregate £100,000. A number of other arrests are anticipated. An embargo has been placed on the banking account of a well-known bookmaker. Burge was brought up in the Bow street police court charged with uttering checks aggregating £80,000, knowing them to be forged. He was remanded.

Vienna, Nov. 25.—The Vaterland says: Just at the moment when the agitation in Germany against the barbarism and brutality of the English in the South African war has reached a climax, it is proved by judicial sentences that in the midst of peace Polish children under German rule are subjected to sanguinary treatment and that Polish parents guilty only of protesting are thrust into prison.

The unfortunate insane Mrs. Flagler, from whom Millionaire Flagler secured a divorce in order that he might wed another woman, ought to be well cared for, judging from this little item sent out a few days ago:

New York, Nov. 21.—Dr. Carlos F. MacDonald was Wednesday awarded \$25,000 a year by Justice Clarke, in the Supreme Court, for the proper maintenance and care of Mrs. Ida M. Flagler, who has for a considerable period been a patient in the doctor's sanitarium. He was also allowed \$5,000 for his personal services to Mrs. Flagler. This was done on the recommendation of Dr. MacDonald that Mrs. Flagler should be placed in a position in which, in accordance with her income and the manner in which she was accustomed to live, she could maintain her own establishment.

Justice Clarke, upon the recommendation of Charles F. Shourdes, Stephen Shourdes and Mrs. Mattie A. Johnson, the two brothers and sister of Mrs. Flagler, allowed them \$4,000 a year each to be paid them out of her income.

Young Men Growing Up Without Any Trade or Profession—Parents Responsible.

[Exchange]

Every day on the streets may be seen young men who are floundering about, ignorant of a trade or profession and no idea of business training. These are men eminently capable of whatever they would set their heads to learn, but they are just loafing their time, stunting their mental capacities by disuse, until soon they will find themselves adrift in a busy world with no knowledge of any business, trade or profession, and their only support for a living will be a chance day's labor. Parents who neglect their boy's business training and fail to prepare him for an active place in the world, are laying up for themselves a heavy share of blame and malediction.

"The blood is the life." Science has never gone beyond that simple statement of scripture. But it has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgement are affected, and many an evil deed or impure thought may be directly traced to the impurity of the blood. No one can be well balanced in mind and body whose blood is impure. No one can have a wholesome and pure life unless the blood is pure. Foul blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery. When the blood is pure, body and brain are alike healthy and life becomes a daily happiness.

Free.—Dr. Pierce's Common Sense Medical Advisor, 1008 pages, 700 illustrations, is sent free on receipt of stamps to defray expense of mailing only. Send 21 one-cent stamps for paper covers, 31 stamps for cloth, to Dr. R. V. Pierce, 663 Main street, Buffalo, N. Y.

COAL COMING.

Big Shipment Now on the Way From Pittsburgh—River News.

As a result of heavy rains along the streams above Pittsburgh, a stage of ten feet was expected there by this morning and it was thought it might go even higher. Along the Monongahela there was a very heavy rain and snow, the snowfall at places amounting to twenty-one inches. Coal men and manufacturers are confident of being able to practically clear the Pittsburgh harbor on this rise of the vast amount of freight accumulated during the past four or five months, thus relieving greatly the congestion on the railroads. Full 30,000,000 bushels of coal were awaiting shipment, and the movement of manufactured iron and steel will be greater than ever known before. Between 30,000 and 40,000 tons of steel rails will come out destined for the Gould lines, the Missouri Pacific, the Texas Pacific and Iron Mountain roads. In addition, about 12,000 tons of cotton ties and a heavy shipment of miscellaneous merchandise are expected to be sent South. To transport this unusual tonnage it is estimated that seventy steamers and from 900 to 1,000 boats and barges will be required. Much of the coal is en route by this time, and the fleet ought to pass here by Thursday, if not delayed.

The Stanley is to-night's packet for Pomeroy.

The Virginia will pass up to-night for Pittsburgh.

The Queen City will leave Pittsburgh to-morrow.

The Sunshine passed up this morning for Pomeroy in place of the Courier, the latter having "run through herself" on her down trip Sunday.

During the slight rise in the Ohio river last week the Kanawha coal operators succeeded in getting nearly 3,000,000 bushels of coal into the lower markets. The getting of this coal out was made possible by drawing something like three feet of water from the slackwater pools of the Kanawha river.

The gross receipts from the oyster supper given by the ladies of the Church of the Nativity Thursday and Friday amounted to \$100.

Electrician Towle of the C. and O. will give an interesting lecture on electricity at the Y. M. C. A. next Saturday night at 8 o'clock.

Mrs. Hester Trapp, nee Chinn, is critically ill at her home in Lexington. She is the widow of the late Joseph D. Trapp, formerly of this city.

The grand jury, after a session of six days, presented its final report Monday and was discharged. About 100 witnesses were examined, fifteen true bills found, twelve cases were dismissed and one was referred to the next grand jury. The public buildings were found in fair condition.

At a meeting of the Contest Committee of the Kentucky Intercollegiate Declamatory Association, which is composed of Kentucky Wesleyan, Kentucky University and State College, Central University was admitted to membership. HOW

Do You Invest Your Small Savings?

If you are able to lay aside only fifty cents to \$5 a week do you not find that it is either impossible to invest these small amounts, or that the rate of interest earned is so small as to be almost insignificant? Through the system of co-operation and compound interest

The Safety Investment Company,

Maysville, Ky., is able to offer the same opportunities for making profitable investments to the man whose surplus is very small, that are obtained by the individual with unlimited capital. We have paid to our certificate holders \$28,624.70 and have passed \$9,228.04 to our reserve fund. For particulars address J. C. ADAMSON, Secretary and Treasurer, No. 27 W. Second street, Maysville, Ky.

Roosevelt and Kentucky.
[Philadelphia Telegraph.]
President Roosevelt is beginning to be wearied by Kentucky. The whole country, outside of the land of Bluegrass and Bourbon whisky, has long been in a state of fatigue from the same cause.

The grand jury returned indictments Monday against W. D. Auxier for shooting and wounding another, and Gabriel Bowling for same offense.

IT'S A TREAT

ALL AROUND TO DEAL IN OUR HOUSE.

You can buy here with your eyes closed for you know you will be fairly dealt with. It's a treat to us to enjoy a patronage that has implicit confidence in us. It may sound a bit boasting when we say we deserve this confidence, yet it's the truth. In hundreds of cases we're more particular as to the exact fit and style of a garment a customer selects than he is himself.

The extreme care we exercise in fitting our customers is the advertising medium that brings the multitude to our house.

For the cold snap we are offering some rare bargains in Ulsters and Storm Coats. Excellent Coats for \$5, \$7.50 and \$10. All of these garments are worth nearly double what we sell them for. The tardiness of the cold weather leaves us with too many on hand, hence the cut in price. If you have not tried a pair of our water resisting Shoes, try a pair. They will satisfy you. See our new line of Mufflers, Handkerchiefs and Gent's Merino Half-Hose.

Just a bit early for Christmas gifts, but they will be gone if you don't select soon. We refer to the elegant all wool gentlemen's Bath and Lounging Robes we have just received. The nicest garments in this line that ever was shown in Maysville.

FACTS AND FICTION.

Experience of Maysville Citizens Are Easily Proven to Be Facts—Outside Testimony is Apt to Savor of Romance.

The most superficial investigation will prove that the following statement from a resident of Maysville is true. Read it and compare evidence from Maysville along with testimony from outside places, published side by side with this in the columns of this paper. Investigate still further and you will be surprised at the number of people in Maysville who re-echo what this citizen says:

Mr. W. H. Paul, of Market street, near Third, says: "I procured Doan's Kidney Pills at J. Jas. Wood & Son's drug store, corner of West Second and Market streets, and one box cured me of pains in my back and other evidences of a disordered condition of the kidneys that had given me much trouble for two years or more. This statement of fact is the strongest endorsement Doan's Kidney Pills could have as to their wonderful value."

The third annual meeting of the Big Sandy River Improvement Association revealed the fact that much work is being done to promote the project of the Government to afford slack water navigation for the Big Sandy and its tributaries, the Tug and Levisa. The project contemplates the construction of eighteen locks and dams, in addition to the three already being constructed, at a total cost of \$4,725,000. When completed this will open to the markets the coal fields in

the Big Sandy region, which are now the greatest undeveloped coal field in the world, covering, as it does, a greater area than the States of Delaware and Rhode Island, and containing coal enough to supply the world with fuel for a decade.
